- Use them as ornaments or gifts.

MATHEMATICS

VACATION ASSIGNMENT CLASS 2

1. Little shopkeeper

Go to a nearby shop with your parents. Choose and buy 2 or 3 items, each costing less than ₹100. Watch carefully how money is given and how the shopkeeper returns the balance.

After buying, write the details in a table as shown below.

Calculate the balance amount returned, if any.

Sl no	Items and cost	Total amount	Amount given to shopkeeper	Balance amount
1	Biscuit ₹35 Juice ₹10	₹ 35 + ₹ 10 = ₹ 45	₹ 50	₹ 50 - ₹ 45 = ₹ 5
2				
3				

Do this activity 2 to 3 times and complete your table neatly.

2. Jigsaw puzzle

Solve the given addition and subtraction questions. Cut out your answer pieces from the picture puzzle and glue them appropriately to reveal the hidden picture.

Addition-Subtraction

$35+17$	$32+19$	$60-21$
$29+18$	$64-20$	$46-17$
$57-19$	$54-18$	$38+20$

58	36	38
29	44	47
39	51	52

Friends Best

Ice-Cream Reading Activity

Read any one story from Panchatantra or Aesop's Fables.
Draw a big ice-cream cone with 3 – 4 scoops on
a sheet of paper. Write the following details
in each scoop:

- **Top Scoop** – Title of the story
- **Second Scoop** – Characters in the story
- **Third Scoop** – Moral of the story
